

Kushagra Nandan

Co-Founder, Managing Director and
CEO, SunSource Energy

A solar energy enthusiast, Kushagra has over two decades of industry experience. During his professional career, he has built, led, and managed large teams that have developed multiple MW scale solar energy projects across the world. As the Co-Founder, Managing Director and CEO of SunSource Energy, one of India's leading integrated distributed solar companies, he has been instrumental in shaping the company's strategy and leading its project execution, technology, and engineering efforts. In the short span of a decade, he and Co-Founder Adarsh Das have carved a niche in the global solar market.

Before founding SunSource Energy, Kushagra worked with a couple of leading global solar majors including SunPower, GE, and Conti Group. He is a graduate in Solar Energy Engineering from the University of Massachusetts and has a Bachelor's degree in Electrical Engineering from Manipal Institute of Technology.

Kushagra has served as a solar technical expert to the World Bank and IFC. He was also a member of the interconnection group at the Mid-Atlantic Solar Energy Association where he assisted New Jersey's Board of Public Utilities in helping define the state's solar policy implementation. He Chairs the C&I Solar Committee at the National Solar Energy Federation of India and is the Co-Chair of the UP State Development Council of ASSOCHAM. He is passionate about rural electrification and energy security through clean energy and storage-based solutions.

Kushagra has won several awards including the 'BW Businessworld 40 under 40', the 'Global Young Entrepreneur Excellence Award' at WRETC, the 'UP Ratna 2018', the 'Amity Corporate Excellence Awards' and the 'Entrepreneur of the Year Award' at the DLA Awards 2019. His work has been highlighted in top publications and he is a sought-after speaker at major global platforms.
